

Yale Fellowships and Funding

Preparing for Marshall, Mitchell, Rhodes: MMR

Research

What graduate course(s) or degree program(s) makes the most sense to you?

Programs | Courses

Connect

Have conversations with **faculty** and **possible recommenders**; **students** with relevant experience; **advisors** and others with whom you have **strong connections**.

Learn

Learn about the fellowships and their requirements.

Marshall

Mitchell

Rhodes

Organize

Keep track of everything related to the application process, including your **MMR research**, notes on **conversations** with faculty and peers, **dates and deadlines**, **ideas** for personal statement(s).

Tip: Use a Google Doc or spreadsheet to keep track

Write

Start the writing process! Write as ideas come to you. Keep track of useful anecdotes that you may want to include.

Plan

Fellowship applications require a **time commitment**. Give yourself enough time to write a strong application. Writing will mostly happen over the summer.

Tip: Treat the application process like a class, commit to attend 2-3 times/week.

Deadlines

Give yourself self-imposed deadlines. Make your next appointment with the **UK fellowships advisor** one of those deadlines.

Options

Think about other fellowships, as well. There are a lot of opportunities to explore!
